

Welcome to Jr. Detectives!

Each week of our series we will think and act like detectives:

- Imagine you are a detective! Get your notebook and pencil ready!
- View a motivational spotlight to learn more about the job of a detective
- Look at our clues for the week
- Investigate and search-this can be done via books, newspapers or articles online or in person with a grown up as the clues will lead to somewhere in the community. (or explore in person after you think you've solved it!)
- Do a Just for Fun! activity
- Share with Miss Windy by registering for a Friday Show & Tell session by clicking on our event calendar on July 24th or 31st, August 7th, 14th or 21st at www.manliuslibrary.org

Imagine you are a detective! Think what a detective does. What skills and actions do they take?

Motivation Spotlight- How to become a detective? Over the previous weeks we learned a lot of skills. Here is an overview video that will give you final thoughts as well! <https://youtu.be/RrOAWEFNkkk>

Clues-

1. A playground and sports fields are nearby
2. A scenic place in the village, originally was two ponds
3. The village paid one dollar to own the property in 1952 from the Cheney Family

Just for Fun Activity-Fingerprinting-It's as easy as loop, whorl, and arch! You can use an ink pad or simple pencil lead. For clear fingerprints, use the pencil lead method. Then, instead of pressing directly onto paper, stick clear tape on the fingertip. Peel off and stick tape on paper.
